

# The International School Yangon

## Secondary School Supply List

2019-2020 School Year

Most items can be found locally, but in the event that students or parents prefer certain brands, you may want to purchase these when you are in your home country.

Items	✓
A laptop (please see specifications listed below/ page 2)	
Pencil (2B, 2HB, 6B), eraser, highlighters	
Pens (red, black, blue)	
1 box of colored pencils	
8 spiral notebooks	
<b>Band</b>	
Solid black dress pants (no jeans) or ankle length black skirt/dress	
Black-collared, button up dress shirt	
Black socks	
Black dress shoes (no sports shoes, no flip flops)	
<b>PE</b>	
ISY T-shirt (purchased at ISY)	
ISY Black shorts (purchased at ISY)	
<b>Girls:</b> A one-piece bathing suit. Two-piece suits are not permitted. Girls may choose to wear swim trunks and a swim shirt if preferred. <b>Boys:</b> Swim suit or swim trunks. PE shorts or non-swimming shorts cannot be worn. <b>Optional:</b> Swimming shirts. Non-swim shirts are not allowed.	
Goggles	
Water bottle	
Tennis shoes/sports shoes/sneakers	

Additional Resources	
2 or 3 ring binder or folder with plastic sleeves for organizing handouts (for Mandarin, French and Science)	
Folders - 2-pocket: Black (large) for Band, French and Mandarin, for Language Arts	
Dictionaries for French or Mandarin (Paper or electronic versions)	
Scientific calculator recommended for grade 7 and above. Students in Algebra 2 through the end of IB, will need not just a scientific calculator, but a graphing calculator. We prefer students have the TI-nspire CX Calculator; (do not buy the TI-nspire CAS calculator version as it cannot be used in IB exams). A limited number of these are available through the school store for approximately \$140 (USD)	
Ruler, protractor, and graph paper	
USB memory stick	

Secondary students are required to have a laptop for their school work which can be configured by the school for the school network. While this laptop can also be used at home for leisure activities it should primarily be thought of as a device for completing schoolwork.

Your choice of laptop should match your child's or family's educational needs. The educational program of our students requires them to do internet research and to use Google Apps for Education (Classroom, Drive, Docs, Sheets, etc.). In this case, simple, somewhat inexpensive laptops may meet their needs. Students who take multimedia-rich electives will require higher-end laptops that easily handle video, graphic editing or 3D modeling. A general rule of thumb is to purchase the best laptop available within your budget.

We recommend the following minimum specifications for a family owned, BYOD laptops. These minimum requirements are designed to ensure students have a device which enables them to fully participate in educational activities and be supported appropriately by teachers and technicians.

## Laptop

- Mac (High Sierra or higher), Windows 10 (English language only), Chromebook (Latest Operating System)
- Age - Three years maximum
- Memory (RAM) - Minimum 4 GB or more for new purchases (Lack of RAM can result in degradation of speed for students)
- Processor Type - Multicore
- Audio / Video - Students will need headphones or earbuds as well as a built-in or external microphone.
- Web camera
- 11 inches or above screen size
- Wireless capability
- Device must have a physical keyboard suitable for touch-typing (\*iPads and other tablet computing devices may be used at times, but do not meet all of the above requirements and are unsuitable as the only device for the student).
